

Dear Parents,

Occasionally, our families ask for the email addresses of other parents in the class, usually to send out birthday party invitations or arrange playdates. Newly enrolled families may also want to connect with parents who live in their area or work at the same company.

If we receive such a request, may we share your email address with these families? It would only be for direct connections between Creative Minds families, never for commercial purposes. Please indicate your preference below:

Yes, you may share my email address with other Creative Minds families.

My email address is:

No, please do not share my email address.

We want to respect your privacy preferences, so please return this slip to Teacher Jennifer to indicate your choice. Thank you!
